mei. EASITRAX® Soft Count UPGRADE KITS
Available from Suzo-Happ Group

MEI EASITRAX Soft Count is a hardware and software solution that acts as an interface between the casino floor and the soft count allowing casinos to track assets and maximize control. Information collected in the bill validator is now easily accessible in a database that can be networked to multiple locations and be accessed to analyze slot performance.

MEI EASITRAX Soft Count is a faster and more efficient way to manage cash drops and evaluate data from slot machines.

RFID technology connects slot machine asset numbers to a specific cashbox. Casino operators can streamline the cash management process through:

- Easily retrofitting all existing MEI CASHFLOW SC systems with easy-to-install upgrade kits
- Integrating existing counter/sorter equipment to maximize efficiencies by minimizing system components
- Tracking the scheduled drops of all cashboxes providing a fast, efficient source to validate revenue and ensuring a more accurate collection process

EASITRAX Soft Count provides cost savings by:
- Eliminating the cost associated with searching for "hotboxes"
- Improving efficiencies within the drop process
- Avoiding jurisdictional fines due to out of date software
- Increasing labor efficiency in the soft count room
- Providing tools to maximize the casino layout
- Reducing the number of cashboxes because they no longer need to be dedicated.

Tracking Your Slots and Cash
Just Got Easier

Features

- Streamlined engineering
- Back room interface uses existing process / counting systems
- SQL database record storage
- Information accessibility
- Automated connection between slot and cashbox
- "Hot box" detection
- Validate drop
- Incremental accounting system

Advantages

- Easily retrofits to all existing MEI CASHFLOW SC systems; no batteries or wires
- Integrates with existing equipment
- Data repository for individual workstations or network
- Track performance, acceptance rate and note acceptor software revisions by machine
- Use of RFID eliminates writing and wanding
- Note acceptor will not enable live cashbox
- Automatically verify all boxes were collected and detect unexpected boxes
- Fast access to game revenue data; quickly resolve count variances

Benefits

- Easy and efficient installation
- Flexibility to use any soft count equipment
- Database mining to analyze and improve operations
- Maximize operational efficiency and profitability
- Reduced drop team labor and increased accuracy
- Eliminate time and cost associated with "hot box" search
- Reduce variances and quickly locate errors by asset number
- Additional source for revenue validation

EASITRAX Soft Count Reports

Accessing data has never been faster – allowing operators
to base decisions on several instant reports available.

Available Reports:
- Acceptance rate
- Cashbox full
- Currency report
- Drop status
- Jams
- Rejection types
- Version report

Bill Acceptance Rate

Summary for Group : Main_Floor

Asset Number	Acceptance Rate
111111	97.00%
111112	100.00%
111113	98.58%
111114	99.50%
Overall Acceptance Rate:	**98.74%**

Currency Denomination Breakdown

10-Jun-2008

Denom	# Bills	% of all Bills
$1	5	2.78%
$2	10	5.56%
$5	15	8.33%
$10	5	2.78%
$20	10	5.56%
$50	15	8.33%
$100	5	2.78%

EASITRAX Soft Count Installation

The EASITRAX Soft Count system has been designed to be easily retrofitted to the CASHFLOW SC bill validator. Building a comprehensive cash management solution is as simple as applying these basic components:

- Placing an antenna board to the CASHFLOW SC interface board
- Applying RFID tags into the cashbox to allow information to be transmitted
- Tying EASITRAX reader bases (up to four) into a soft count room system that includes a USB hub and a computer
- Installing software that creates a SQL database and loads available reports

Hardware installation is a snap –
only a screwdriver is needed:

1) Mount the antenna board to the interface PCB
2) Apply the FCC ID label to the chassis
3) Mount the RFID tag to the pusher plate
4) Apply the EASITRAX label to the cashbox

Part Number		Price per ea.
42-1541-00	**MEI EASITRAX Upgrade Kit** Includes 10 Antenna Boards, 10 RFID Tags, 10 Standoffs, 10 Labels, 10 FCC ID Labels, 10 Alcohol Wipes, 30 Standoffs, 60 Plastic Screws and 10 Ferrites	1,250.00
62549890P10	**MEI EASITRAX RFID Tag Kit** Includes 10 RFID Tags and 10 Labels	105.00
252066165	**MEI EASITRAX Soft Count Kit** Includes 2 Software CDs and 2 Reader Bases	5,800.00
50086190P12	**MEI EASITRAX Spare Cashbox Kit** Includes 12 Cashboxes, 12 RFID Tags and 12 Labels	1,295.00
252060141	**MEI EASITRAX Reader Base**	1,995.00
